

**California Mathematics Council Central Section Presents
The Second Annual**

March 9th and 10th, 2012

Join us at CART, 2555 Clovis Ave., Clovis, CA 93612

Come experience the power of utilizing Science, Technology, Engineering and Mathematics in a Standards-Based classroom for grade levels 3-12

Registration 2:45PM - 3:15PM

Friday 3:15PM – Administrator sessions

- Visit and learn about a project and technology-based school that is a collaborative effort between two school districts with the school's principal, Devin Blizzard.
- Presentation by Harold Asturias, Lawrence Hall of Science, on making learning visible with the Common Core Standards for Mathematical Practice. A discussion on the evidence of students working through the 8 Standards of Mathematical Practices and the implications for promoting sense making and equitable learning environments.

Friday 6:30PM – A Private VIP dinner for the first 100 registered

Dinner, technology presentation, door prizes and time to network.

Dinner provided by: **Defined STEM**

**VIP Dinner
Classic Catering
625 4th St., Clovis, CA 93612**

Bring a team of an administrator and two teachers for \$399 or \$159 per person.

Saturday sessions focus on the value of STEM learning environments as a way to engage students and increase motivation. Experience activities you can implement in your classroom on Monday that create a strong understanding of mathematics and science concepts.

*Sessions are relevant for teachers, administrators and teacher leaders.
No substitute required; College Credit available.
